**Subject:** Resources: Some Public & Private Countywide Planning Efforts

Hello,

Based on the work group's request on 2-25-04 directing staff to identify and inventory public and private countywide planning efforts, I wanted to relay some materials for work group member review. Web links have been made to the identified plans for housing and/or economic development. In addition, a pdf version of these documents will be accesible under the "e-mails" category on the work group website. If available, the following information will soon be at:

University of Wisconsin-Madison, University Research Park Strategic Plan 2001-2005:

Additionally, given the work group's prioritization of the University and Economic Development, I also wanted to distribute a powerpoint report by NorthStar Economics, Inc. about the "Economic Impact of the University of Wisconsin: The New Economy and the University of Wisconsin-Madison:"
