Subject: 7-7-04 Housing & Economic Development Work Group Meeting Materials

Attached you will find meeting materials for the July 7, 2004 Housing & Economic Development meeting from 7p to 9p at the Lyman F. Anderson Agriculture and Conservation Center. As the last meeting of Step 2 in the planning process, the work group is charged with recommending goals and objectives to the Comprehensive Planning Steering Committee and the Milestone Meeting by the end of the meeting - though there will be future opportunities to revisit and revise the recommendations for final draft housing and economic development goals and objectives.

The first attachment, a '[housing worksheet](#),' is intended to facilitate the third working session on housing goals and objectives. There are a number of draft housing objectives developed by the work group over meetings from July to December of 2003 that have not been re-evaluated yet. Additionally, there are potential objectives emerging from the Spring of 2004 education/review sessions that have not been evaluated. Consequently, the housing working session will focus on first discussing those items not yet reviewed; and if time permits, revisiting goals and objectives re-evaluated during the first two working sessions. If possible, please review this document prior to the meeting. (Note that objective statements that are not shaded have been identified as 'needing work' or have not been reviewed yet.)

The second worksheet is the "[July 2004 Final Draft Economic Development Goals & Objectives](#)." It is a document based on economic development goals and objectives drafted by the work group from July to December of 2003 and re-evaluated on June 7th and June 23rd of 2004. There is some time scheduled on the agenda for one more overall review of the document before are made by the group about recommendations. Again, please review this document prior to the meeting if possible.

Thank you for your time and energy throughout this process. Your participation, especially at this next meeting, is invaluablely important!

Michelle
