

The January 27, 2005 Housing & Economic Development Work Group meeting featured a brainstorming session, during which resulted in a listing of draft policy statements. They are potential policies that have not yet been edited, reviewed, categorized, prioritized or evaluated by the group. The group has yet to consider existing policy statements, which will occur at the next meeting. Taken together, the brainstorming session(s) and evaluations of existing policy statements are the basis for housing and economic development policy statements for the Dane County Comprehensive Plan.

Brainstorming outcomes have been attached. Please review these potential policy statements and keep them in mind as you consider existing policy statements at the next work group meeting. Since some of the brainstorming session's statements refer to specific policies and programs, resource links have been provided for your information:

For basic information on Transfer of Development Rights, see:
