

Transportation, Utilities and Community Facilities (TUCF) Workgroup

DRAFT Updated Schedule-Step 3

On December 1, 2005, the workgroup decided to meet monthly, and is yet to set the regular meeting dates. For Step 2, the workgroup met on the third Wednesday of the month.

Now that final draft goal & objective statements are complete, it is time to move on the Step 3, which is producing draft policies and programs. During the December 1st meeting, the group decided that prior to starting discussions of policies, they should briefly review the goals and objectives for that topic. If during the policy discussion there is consensus that a goal or objective statement should be revised, the group will do so.

It will likely be difficult to stay on task, so the facilitator was asked to be strict in keeping the group on schedule. Toward this, the following schedule was developed:

- **January 27, 2005** – Health care facilities, childcare facilities, and schools [review of goal & objective statements, and work on policies]
- **February, 2005** – Power plants, transmission lines & telecommunication facilities [review of goal & objective statements, and work on policies]
- **March, 2005** – **Parks***, cemeteries and libraries [review of goal & objective statements, and work on policies]
- **April, 2005** – Sanitary sewer service, on-site wastewater treatment technology, water supply, and **storm water management*** [review of goal & objective statements, and work on policies]
- **May, 2005** – Police, fire, rescue and Badger Prairie [review of goal & objective statements, and work on policies]
- **June, 2005** - Solid waste disposal and recycling facilities [review of goal & objective statements, and work on policies]
- **July, 2005** – Transit, transportation facilities for disabled, bicycles and walking [review of goal & objective statements, and work on policies]
- **August, 2005** – Railroads, air transportation, water transportation, trucking and highways [review of goal & objective statements, and work on policies]

* Already covered by ANCR.

“Implementation 101” Educational Sessions (combined meetings)

The Agriculture, Natural & Cultural Resources (ANCR) workgroup requested education sessions on various implementation strategies. Members of all three workgroups are encouraged to attend any that they find interesting. These sessions will be noticed jointly so you will receive notification of these via email in the future. Please note that these sessions are *optional* for TUCF and HED workgroup members. They are scheduled on Wednesday evenings as follows:

April 13, 2005 – Coordination, education, technical assistance & incentives

June 8, 2005 – Infrastructure, public investment and direct services.

July 20, 2005 – Acquisition

September 21, 2005 - Regulation
