Subject: **Badger Prairie Health Care Center  
Utility Construction Plan Review  
Earth Tech Project No. 77904.30**

Dear Mr. Borucki:

On behalf of the City of Verona, as City Engineer, I have reviewed the revised utility construction plans and specifications for the utility extensions to the Badger Prairie Health Care Center. Pursuant to that review, I find the utility plans and specification are in general conformance with the City of Verona construction standards and policies and as such the plans are conditionally approved for the construction as follows:

1. That all State, County, and City permits are obtained prior to the start of construction and that copies of State and County permits are provided to the City of Verona Director of Public Works prior to the start of construction.
2. That a pre-construction conference be held prior to the start of construction to which Mr. Ronald Rieder, Director of Public Works, and myself be invited to attend.

A copy of this conditional approval letter should be submitted to state agencies with review authority when applying for sanitary sewer and water main approvals.

Should you have any questions regarding this approval letter, please contact Robert Gundlach at 828-8137.

Sincerely,  
Earth Tech, Inc.

A handwritten signature in cursive script that reads "Robert E. Gundlach".

Robert E. Gundlach, P.E.  
City Engineer

Enclosures: As Noted
