RE: 'Northwest' USA amendment request to include 10 acres of lands on the northwest side of the City of Verona in the Verona Urban Service Area.

Dear Ms. Weber:

Attached, please find our materials for the City of Verona's 'Northwest' USA amendment request to include 10-acres of land—located in the southeast quarter of the southeast quarter of Section 8—in the City of Verona urban service area.

Please review these materials and let me know if there are any required modifications and/or any other items we need to submit. After I hear back from you, I will submit the required number of final hard copies.

Please note that the Verona Common Council has officially requested that the addition of these lands via a Council resolution on June 14th, 2010. A copy of that resolution is included with our application materials.

We would like this item—if possible—to be placed on the November CARPC agenda for a vote.

I can be reached at 848-9941 if you have any questions.

Sincerely,

Bruce K. Sylvester, AICP
