

2011 Clean Sweep Fact Sheet

Hours: Tuesday, Wednesday, Friday, Saturday
 7:30 a.m. – 2:00 p.m.
 May 3rd through October 29th

Location: Dane County Highway Garage (north end)
 2302 Fish Hatchery Road
 On the corner of Fish Hatchery & Badger Roads
 Tel: (608) 243-0368
www.danecountycleansweep.com

Clean Sweep is a program designed to lower the environmental risks associated with improper disposal of hazardous materials by providing the public with an opportunity to dispose of unwanted pesticides, household products and chemicals for safe and legal disposal before they cause problems. Household materials accepted include OIL-BASED PAINTS AND PAINT-RELATED PRODUCTS, PESTICIDES & POISONS, HOUSEHOLD PRODUCTS CONTAINING ORGANIC SOLVENTS, IGNITABLES, AND AEROSOLS, and RECHARGEABLE BATTERIES. Please see the table below for disposal methods of common materials.

Material	Disposal Method
Aerosol Cans Partially full or full	BRING TO: Clean Sweep
Empty	Remove and discard the caps and nozzles, place the empty can in with your recyclables
Ammunition, Explosives and Fireworks	BRING TO: Dane County Sheriff's Office Bomb Squad Technician, (608) 255-2345
Antifreeze	BRING TO: Clean Sweep, Valvoline® Instant Oil Change, or other auto service locations*
Ballasts (Electrical) If they are electronic or label says "No PCBs"	BRING TO: <ul style="list-style-type: none"> • Private lamp recyclers [fee charged] (see Fluorescent Light Bulbs section), or • Throw in your trash
If they contain oil and label DOES NOT say "No PCBs"	BRING TO: Clean Sweep
Batteries Lead/acid automotive type and other rechargeable batteries	BRING TO: Clean Sweep, Batteries Plus, and other places that sell them*
Button batteries	BRING TO: Clean Sweep
Alkaline, single use & other disposables	Throw in your trash

* For other recycling locations throughout Dane County, contact your local recycling office or county web page at www.countyofdane.com/pwht/recycling.aspx. For more information on City of Madison curbside services and disposal options, refer to the "Recyclopedia" or www.cityofmadison.com/streets, or call Clean Sweep at (608) 243-0368. You can also check out our website at www.danecountycleansweep.com.

The listed municipal agencies or private businesses will accept the materials not accepted by Clean Sweep. Listings on these sheets do not imply endorsements or recommendations of firms or their services. The program accepts only those materials for which there is no other disposal option in the county.

Please remember that leaving materials at the site when we are closed is illegal and can lead to a \$2,000 forfeiture.

OTHER MATERIALS CLEAN SWEEP DOES NOT ACCEPT

Tires, paper or cardboard products, yard waste, construction debris, asbestos, rubbish, glass, solid metals, solid waste, appliances, recyclable containers, etc. Contact your local government or trash hauler for details on proper disposal.

If you are unsure about any of your household items, please call Dave Radisewitz at (608) 243-0368 or email him at dradisewitz@publichealthmdc.com.

DISPOSAL OF LATEX PAINT & WATER-BASED DRIVEWAY SEALER

Latex Paint and Water-Based Driveway Sealer are NOT Hazardous

Dry them thoroughly with latex paint dryer, kitty litter, Oil Dry® or shredded newspaper and trash them. However, make sure the lids are off when you set them at your curb, or place them in your **trash cart** if you have automated trash pick-up.

If the material is hard on the bottom with some liquid on top, pour the liquid down an indoor drain (sanitary sewer) and place the dried can at your curb without the lid or place the dried can in your trash cart if you have automated trash pick-up. You may flush small amounts of **latex paint** (less than 1/3 full for a 1-gallon container) down an **indoor** drain. Clean Sweep will accept containers of liquid latex paint that are more than half full.

SMALL BUSINESSES (VSQGS)

Businesses should contact Dave Radisewitz at (608) 243-0347 or email him at dradisewitz@publichealthmdc.com for information on how to dispose of hazardous materials.

HOW TO TRANSPORT MATERIALS

Products and materials should be packaged to keep them from spilling or breaking while being transported to Clean Sweep. Leave materials in their original containers. **DO NOT MIX ANY MATERIALS.** Leaking containers may be placed, as is, in another container. Label the outside container to reflect contents of inside container.

RECYCLING HAZARDOUS PRODUCTS

- | | |
|-----------------------|---|
| Dirty Thinners | Reuse thinner and other solvents for rinsing brushes and guns. Let solids from dirty thinner, turpentine, etc. settle in the bottom of a clear container. Filter the remaining liquid through cheesecloth or an old nylon until the solvent is clear. Dry and dispose of the particles and paint chips in your regular trash. |
| Gasoline | Gasoline drained from a snow blower, lawn mower, chainsaw, etc. that is mixed with oil may be used up in your vehicle. Check the gasoline to see if it is clear except for the color of the oil used. If clear, pour into your gas tank on a 10:1 ratio (ten gallons of new gas to one gallon of old gas). The small amount of oil in the old gas will not affect the performance of your vehicle. If your gas cannot be used in this way, bring into Clean Sweep in a container you can leave. |

PRODUCT EXCHANGE

Need a pint of stain or a gallon of basement paint? Does your roof need patching or are you stripping a piece of furniture? When you bring in products that are in good and usable condition, we will stock them on the shelves of our Product Exchange, a kind of free store open to the public. The Clean Sweep & Product Exchange attempts to reuse or recycle as much of the material as possible that is brought into the facility.
