<p>Educate and encourage property owners to take action to decrease their vulnerability to the impacts of natural hazards.</p>	<p>HMP Goal 1: To empower individual residential property owners to take action to decrease their vulnerability to the impacts of natural hazards.</p>	<p>The meaning of "empower" was not clear in the old goal; replaced with "encourage". Education component needed to be stated in goal. Similar to State HMP goal 2.</p>
<p>Encourage hazard mitigation planning and incorporate into other related plans.</p>	<p>New</p>	<p>Many new jurisdictions joined the planning process in 2009 and see the value of it. Other high risk communities exist in Dane County that are not covered by this plan. Elements of this plan should be incorporated into local comprehensive and emergency plans (i.e. updates to hazards analysis in EOP's, evacuation planning, special needs planning, etc.)</p>
