**Subject:** NMP

Tom,

My name is Bill Acker and I live at 5147 Hwy 12.

Alignment 15W would require me to relocate & destroy too much farm land. My stone house was built in 1865 and should be considered a historical site. 13W & 14W require too many relocations & destroy too much farm land also.

It is apparent that 5W & 5E have the least impact on farms & relocations. It is my opinion to pursue a northern route.

If you have any questions you may call me at any time at 608-239-8838.

Thanks,  
Bill Acker

marikr9@tds.net

## Comments:

Do not think this proposed road should use Hwy K. Do not disrupt so many farms. The people in the proposed development will still use M to get to University Ave area. People from Waunakee, DeForest and Sun Prairie way could sure use a more northerly route. North Mendota Parkway must be put North of Hwy K.

Please consider Elliot Long's Proposal

Comments: I AM NOT IN FAVOR OF ANY NEW  
HIGHWAY AROUND LAKE MENDOTA. USE THE  
EXISTING ~~ROADWAYS~~ ROADWAYS. LET THEM  
BE IMPEDIMENT TO ADDITIONAL SPRAWL  
IN THE AREA. KEEP THE FARMLAND  
AND NATURAL AREAS UNDISTURBED.  
FUTURE GENERATIONS WILL THANK YOU  
FOR THAT.
