SUBJECT: **ADDENDUM #3**

**The following answer is provided in response to questions received.**

***Question #1** So, I sorted the census and there are 2045 participating active employees in the plan, and there are 627 in the retiree plan....for a total of 2672. But, if you look at the active experience, the most recent month shows 2709 enrolled in the active plan, not even including the retirees who are in a separate experience report.*

*Can we verify that the active report is truly just for the active employees? If I add the active and retirees based on the experience reports, December 2010 would show a total of 3340 enrolled between the two....*

**Answer #1** There was an issue with the reports that were sent. The report listed as 00704 Experience 07-08 and 00704 Experience 09-10 were also listed as Master and our combined Active and Retiree numbers. The reports attached to this addendum are for the same time frame, however, they include active employees only.
