Sensitive, Threatened and Endangered Features

- | | | | |
|--|---------------------------|--|--------------|
| | Oak Savannah's | | Rare Species |
| | Ice Age Corridor | | Aquatic |
| | Slopes >= 20% | | Both |
| | Woodlands | | |
| | Grassland Management Area | | |
| | Eagle Roosting Area | | |
| | Environmental Corridor | | |
| | Wetlands | | |

Potential Pollution Sources

Standard Legend

- Interstate
- US Highway
- State Highway
- County Highway
- City
- Village
- Town
- Major Lake

What you're looking at:

This map shows a variety of ecologically sensitive areas and possible sources of contamination from storage and other waste facilities. This map and the datasets used to create it do not represent all the possible environmentally sensitive areas nor all the potential pollution sources. Potential pollution sources include solid waste disposal sites, leaking underground storage sites, fertilizer and pesticide application businesses and septage disposal sites.
